Subject: Delta Shipyard (06GC) -- Purchase Card Expenditure Confirmation and Request
Date: Monday, April 01, 2013 2:16:00 PM

Lydia,

I'm sending this email to document, and for you to confirm via return email, our previous conversations concerning needed site related deed search work. During multiple conversations you gave me verbal approval to use my purchase card (or convenience check with related check fee if necessary) to find and pay an abstractor that lived/worked in the Houma, Arkansas area to search for recorded land records that pertained to Delta Iron Works, Inc. in Terrebonne Parish during the period 1957 through 1979.

FYI, abstractor has found, and has emailed to me, copies of ten recorded instruments that identified all purchases and sales of separate parcels of land in Terrebonne Parish that involved Delta Iron Works, Inc. during the period 1957 through 1979. One particular deed, dated July 13, 1964, documented the purchase of a 68.640 acre track of land by Delta Iron Works, Inc. The area of concern on the Site, i.e., the pits, is situated on this 68.640 acre track of land. The abstractor's search also confirmed that Delta Iron Works, Inc, had not sold any land in Terrebonne Parish during the same time period to Chromalloy American Corporation.

Abstractor's total charge for his service was \$123.00.
